Dear Friends,

Let me cordially invite you to visit the pavilion of our picturesque country – the Slovak Republic – in the world exhibition Expo 2010 Shanghai.

The Slovak Republic is a young country in the very heart of Europe, which after 17 years of independence walks ahead of ever bigger successes, and works on its development in an atmosphere full of global acceptance. Slovakia is a respected democratic country today, a member of the European Union, the NATO and many other international institutions. Thanks to extensive reforms, our country became one of the most dynamic economies in Europe. Yet, when describing the Slovak Republic, we should not forget that it not only has a dynamic presence, but also an interesting and rich culture and history. Though Slovakia is a young state, the Slovaks as a nation are among the oldest ones in Europe. And these are the very attributes we want to present in our exposition.

Yes, Slovakia gets so many different, positive characteristics in today's world because it is a successful and attractive country. And this is the kind of Slovakia where we want to welcome you in! Whether you decided to do business in our country, see your old friend, or you want to visit us as tourists, I would be absolutely happy if your image of Slovakia consisted of all the aspects that our country offers to the world – hospitable and warm-hearted people, beautiful natural treasures, rich folklore, long history and precious works of our artists, traditions and habits, and a creative and really friendly atmosphere.

I am very glad that the world exhibition Expo 2010 in Shanghai opens the doors of more than 200 countries of the world to its visitors. The theme of the Slovak pavilion's presentation is "World for Humanity", highlighting the need to return to the original values that make people to be people. Slovakia is at the historic crossroad of cultures and religions. And because of that we can carefully and perceptively listen to the world around us. I am glad that the world exhibition Expo 2010 is held in China this year – in the most populated country of the world with a huge cultural and economic potential. A symbolic connection between China and Slovakia could also be the fact that the first Asian skyscraper in Shanghai was designed by a Slovak – Ladislav Hudec, to whom a part of our exposition is dedicated. I am convinced that you will feel good in our pavilion and that it will be an inspiration for you to visit our picturesque in the heart of Europe.

Dear Friends,

With the feeling of immense patriotism and pride in the Slovak Republic I would like to encourage you to learn about our beautiful country from all its essential and integral aspects. On your way through the lowlands stretching from the majestic Danube River up to our Tatra Mountains I wish you many experiences and nice encounters.

Ivan GAŠPAROVIČ
President of the Slovak Republic

**OFFICE OF THE PRESIDENT OF

e-mail: informacie@prezident.sk
<http://www.prezident.sk>

Dear Readers,

Slovakia is an open and export-oriented country. Almost 90 per cent of our GDP is made up of export. This openness, which was an advantage at times of prosperity of the region, has manifested itself negatively in the period of the global crisis. Since Slovakia is highly dependent on the development of the external environment, we are particular in contributing to the renewal of growth in the entire region by means of appropriate measures. The measures approved by the Government of the Slovak Republic, aimed at mitigating the consequences of the global crisis, therefore have an impact on the economies of other countries, too. We make endeavours to compensate the deficit of private investments and consumption by means of a broader private investments programme focused mainly on infrastructure construction and renewal. We are introducing programmes for the promotion of industry and reduction of energy intensity.

A favourable business environment is the prerequisite for long-term competition and growth of every market economy. The decisions and actions taken by the public administration in the past years have largely contributed to improving the business environment in the Slovak Republic. In this regard, our country has even become an example to be followed for other countries and is one of those where most of the reforms have been made. Yet, there are always many things to improve. Businessmen in Slovakia still complain about the administrative obstacles. Slovakia has recently joined the activities of the European Union, which is trying to reduce the administrative burdens in business by 25 per cent by the year 2012 by means of an action programme and with the help of the EU Member States. In October 2007, the Government of the Slovak Republic approved the "Action Programme for Reducing Administrative Burdens in Slovakia 2007-2012", by which it entered in this EU commitment. The project is divided into three stages. Currently, we are entering the last stage. We prepared the instruments and defined the conditions for measuring the administrative burdens in Slovakia at the first stage. Within the second stage, we quantified the administrative burdens in the Slovak Republic. The implementation team, in cooperation with the representatives of other sectors, evaluated the 48 most relevant legal regulations. They mainly focused on commercial and civil law, the accounting of bankruptcy and restructuring, market regulation and investment incentives regulation. We also examined the legal regulations concerning taxes, customs, fees and insurance payments, as well as labour, employment, intellectual property and the

environment. This selection was based on the recommendations of the state administration bodies, and the representatives of the business sectors were invited, too. Their opinions and suggestions became the basis of the whole project. It has several fundamental objectives. The first one is to define the actual cost rate and administrative burdens of entrepreneurs, which relates to the fulfilment of reporting obligations arising from the Slovak laws. The next step was the adoption of appropriate measures to decrease the costs for entrepreneurs in this field and reduce their "paperwork" to an acceptable level. Slovakia is now entering the third stage. One of the first measures is that the entities and persons submitting draft bills will be obligated to assess the impacts of the bill on various fields and on the business environment in accordance with the single methodology approved. This will help to eliminate any actions resulting in increased administrative burden and costs for the business already at the stage of drafting bills.

As for measures focused on mitigating the impacts of the crisis, the non-taxable part of the personal income tax base increased in Slovakia. The other measures include increasing of the employment bonus, change in the market entry price of tangible and intangible assets in relation to income taxes, reducing of the period for returning excessive VAT payments, as well as other positive changes in the business environment. As for entrepreneurs in need of access to available resources, the increase in the registered capital of Eximbanka (Export-Import Bank) and Slovenská záručná a rozvojová banka (Slovak Guarantee and Development Bank) is important.

On the proposal of the Ministry of Economy, the Government of the Slovak Republic approved transparent and effective rules for granting state aid, which are favourable to investors. These strictly respect the rules and norms of the European Union. In response to the crisis, these conditions were operatively adjusted under the "package of anti-crisis measures", prepared and adopted by general consensus by the Economic Crisis Council.

We are implementing measures based on the principles of the single market, economic competition, and the rights and needs of citizens. In the framework of its anti-crisis policy, the government adopted 62 measures aimed at raising the aggregate demand and hence reviving consumption and production. These measures also include faster structural funds drawing, and implementation of large investment plans, including PPP projects. We are introducing programmes for the promotion

of industry, tourism and energy intensity reduction. We expect that other countries, too, will invest more in infrastructure and support industrial production not only at home, but also abroad. It is public investments that should act as an incentive factor to eliminate the impacts of the crisis. In Slovakia, it is particularly the highway network construction and the building of the 3rd and 4th block of the Jaslovské Bohunice nuclear power plant.

The newest data on the development of the Slovak economy fill us with certain optimism. According to the statistics published recently, the Slovak economy is again developing in the right direction. The industrial production index in November 2009 grew by 1.5 per cent compared to the previous years (the first increment after 13 months). New industry orders amounted EUR 2,638.4 mil. in November, and compared to November 2008 they grew by 3.8 per cent and exceeded the volume of the year 2008. The statisticians reported a growing economic sentiment indicator since October. The economy sector welcomes the fact that this tendency continued also in January. In comparison to December 2009, its value raised by 2.4 to 84.8 percentage points. The development of this indicator was influenced by increased consumer confidence in the service sector. The economic sentiment indicator grew by 5.5 points against the previous year. Yet, compared to the long-term average, it is still lower (by 13.6 percentage points). This data indicate that the revival is still fragile and that it will take longer until the Slovak economy fully recovers from the economic crisis.

It is therefore important to create opportunities for the development of economic cooperation and open the doors to new investments, either by means of our trade departments of the Slovak embassies in various countries, through the activities of the Slovak Investment and Trade Development Agency (SARIO), or in the form of economic forums and business missions. The Ministry of Economy of the SR follows the very first and central idea according to which the economy of the country can be helped by projects with higher

added value. Partial assessments and analyses of anti-crisis measures showed that there has been no decline in the export of sophisticated, high-quality products. Moreover, it is evident that after this complicated period is over, only those producers will be successful who would provide products and services at the highest technical and technological level. It is the priority of Slovakia to open and extend the room for industrial innovations. This is where the Ministry of Economy sees a perspective future.

The Slovak Republic is a part of the Schengen Area, thanks to which it eliminated trade restrictions. The country entered the Eurozone a year ago, having managed the process of adopting the single European currency without major problems. This has reduced the exchange rate risks for businesses. According to the recent forecasts of the European Bank for Reconstruction and Development in London, Slovakia will have the highest GDP growth within the entire European Union. The estimate is 2.8 per cent for this year, and 4 per cent for 2011. Again, it is the highest growth within the whole Community. These facts enhance Slovakia's reputation as an economic and business partner.

Ľubomír JAHNÁTEK
Minister of Economy of the Slovak Republic

Dear Readers,

You are getting in touch with one of the most successful and most exciting stories of Europe since the end of the Cold War. It is highly likely that your off-road car or family car, or at least a part of it, was produced in Slovakia. It is also highly likely that the plasma or LCD TV-set in your home bears the label "Made in Slovakia". Slovakia has confidently become a part of globalisation and found its firm place in the globalised world. Our country enters the year 2010 determined to continue in its successful story of building its statehood, transforming the society and modernising the economy. We have opened ourselves to the world and the world is opening for us. During the relatively short historic period since obtaining independence in 1993 Slovakia gained a firm position in the world map, membership in the European Union and in other important international groupings. We form a part of the Schengen free movement area without border controls, we use the euro – the same currency as more than 200 million of our European fellow citizens. We have a good and successful story behind us, and we are ready to share our experiences with our partners from the neighbouring countries and from other parts of the world.

The global economic crisis placed obstacles and new challenges also to Slovakia, but the creativity and diligence of our people can cope with them. Our advantage is that in seeking the solutions and the ways out we are not alone. We know that we can rely on our allies and friends within the EU, just as they can rely on us. Slovakia is a team player, which is also reflected in our active involvement in the cooperation with our neighbours within the regional group – the Visegrad Four (V4).

The world exhibition EXPO is the world in a nutshell, an overview of its diversity. Slovakia wishes to show its contribution to this diversity and demonstrate to the visitors not only that we are here, but that we have something to offer, too. It is not only about being recognised by foreigners, but also about getting known by them: who we are, what we have left behind us and where we are heading to. We want to show that we are not only a beautiful country, but also a responsible and reliable member of the global community with our particularities that we want to share with you. I am confident that Slovakia's presentation in the EXPO world exhibition will raise your interest not only in the Slovak pavilion, but also in the story of Slovakia as a whole.

Miroslav LAJČÁK
Minister of Foreign Affairs
of the Slovak Republic

A Piece of Slovakia in Faraway China

The exposition of the Slovak Republic at the Expo Shanghai 2010 is receiving its more and more definite shape – certainly due to the fact that Slovakia belonged to one of the very first participants with the completed acceptance procedures of technical documentation, permissions for construction activities, ideological proposals and other templates.

During the last months of previous year the Slovak party was completing the construction of heavy structures, water and electricity supply systems, softlifts and floor in the interior inside the building with an area of 1 000 m². Since January of this year all the necessary work in the interiors has started – fixing of particular panels, decorations, sound system and other technology installation, interior furnishing. At the same time the external façade is under construction.

Everything must be prepared by April 1st – when the pilot run starts and on May 1st the gates of EXPO Shanghai 2010 will be ceremonially opened. The exhibition will be held until 31st October 2010 and the organizers expect about 70 million visitors.

The participation in this world exhibition is not only an opportunity but also a challenge as well – the challenge to attract and address people from absolutely different language and cultural environment, to find the universal expressive communication tool, a tool without words. That is why we stake on the language of pictures, impressions, music, sounds and lights, on the speech of dance, motions or emotions – this unifies and is close to all the people regardless the age, education, human race, origin, gender or religion... The exposition of the Slovak Republic has its motto „World for Humanity“ – and this world must have the language which is understandable to all of its nationals.

This motto was also incorporated into the architectural rendition by its author, academic architect Miroslav Zikmund and also by the director of the audiovisual work Pavol Barabáš, which will be ceaselessly projected in the pavilion of the Slovak Republic. The movie of Pavol Barabáš will have innovative audiovisual form and will be projected on four screens simultaneously. The spectators can watch it on vertical and on horizontal line as well.

There would be many shots from the whole Slovakia in that movie, among others the cities of Bratislava, Bardejov, Levoča, then castles, e.g. Spišský Castle, Červený Kameň or Bojnice castles. The movie shall be liven up by notional shots adding special atmosphere to it, by typical Slovak wooden blockhouses or representative materials, e.g. from the Coronation ceremony in Bratislava. It shall also remind not only the spectacular landmarks from Slovakia inscribed on UNESCO's World Heritage List but also those sights which are not of that size and importance yet.

The activities for the preparation of the National Day of the SR comprising official ceremonies and cultural program (4th September 2010) are in full swing. The main venue place for the cultural program during our national day will be the stage in the open area, so called Europe Square with 800 seats and standing places. This square is in very closeness of the Slovak pavilion. Well-known Slovak artists will perform, as far as genres are concerned, it will include a big variety, from folk music and dance, opera, pantomime, musicals up to pop music.

As the exhibition last half a year, the national day is just one of the activities which the Slovak Republic will present. There will be many accompanying events and activities inside and outside of our pavilion focuses on tourism, culture, environment or particular regions of Slovakia. It is needed to mention also business and investment activities which will be performed out of the expo areal, not only in Shanghai, but also in Beijing region.

Days of tourism will be prepared – with the title Slovakia, a country in the heart of Europe and a specialized program Slovakia welcomes EXPO, an event for tour operators, journalists and invited guests, Days of Bratislava Region (BSK/Bratislava self-governing region has signed an Agreement on cooperation with Shanghai region), premiere of a movie by Ladislav Kaboš about famous Slovak architect Ladislav Hudec, the designer of the first skyscraper in Shanghai, then the Week of Slovak cuisine in a selected hotel in Shanghai or the presentation of Small Carpathian Wine Route called In Wine a Truth Can Be Found.

This world exhibition is taking place in China for the first time (in the past some cities and countries were repeatedly the hosts of such – e.g. Paris, Brussels, London.)

World exhibitions belong to the most magnificent international events. The number of expected visitors is constantly increasing. About 240 participants have registered in Shanghai Exhibition, mostly individual countries. Other group of participants includes International companies and corporations.

The largest world countries consider the participation in world exhibitions as for granted; all 27 EU member states will participate in this exhibition.

I, as the Expo Shanghai Commissioner General, am convinced that the Slovak Republic will attract the visitors with its exposition, varied and interesting offer of cultural events and with its warm and friendly atmosphere as well.

Dipl. Ing. Ivana MAGÁTOVÁ
General Commissioner
for the 2010 Shanghai Expo

GREAT MORAVIAN EMPIRE – OLD-SLAVONIC EMPIRE (805-905) - 9th century

"I mind the disregard for the culture that is centuries older."

Alexander the Great (356-323 B.C.)

■ NITRA, MIKULČICE, DEVÍN - centres, towns, castles

■ Rulers: **Mojmír I.** (830 - 846), **Rastislav** (846 - 870), **SVĀTOPLUK I.** (870 - 9. 3. 894), **Mojmír II.** (894-907). Territory of the empire: Slovakia, Moravia, Pannonia, Czechia

■ Slavic gods: Perun, Triglav, Dazhbog – god of the Sun, Radegast, Zhiva (Siva) – goddess of life and bioenergy; Slavic priests used meditations and breathing

exercises to accumulate and balance energy;

■ **863-885** Constantine-Cyril and archbishop Methodius with Rastislav and King SvĀtopluk founded the material, spiritual and culture traditions of Slavonic people and devised the alphabet;

■ **866** They founded the Great Moravian training college – school, where 200 pupils finished their studies; literature – writings, poems, code of law;

■ **869** The Old Slavonic language became the fourth liturgical language in the world along with Greek, Hebrew and Latin;

■ Methodius (815-6. 4. 885) studied law; archbishop in Great Moravia and Pannonia-Sirmium - Srem. Mitrovica

■ Constantine the Philosopher – Cyril (827-14. 2. 869) devised the alphabet and spelling, and created words for communication from Greek;

■ **880** The pope issued the bull *Industriae tuae* by which he took under protection the independent Great Moravian Empire

■ Byzantine writing on Slavonic people: "Slavic tribes are accustomed to freedom and will not

let themselves enslave.

They keep open house for foreigners and accompany them as their guests from one place to another, wherever the guests wish. Their way of life is rough, but they are not evil-minded."

■ **~ 889** – Czech lands annexed to the Great Moravian Empire;

■ **~ 906** Magyars invaded Great Moravia from the East, subverted the Empire and settled in Pannonia;

■ **890 - 1000** ➔

Dissemination of material

and spiritual culture From Great Moravia to Bulgaria, Czech lands (Bořivoj I. - in 882 christened by Archbishop Methodius), to the Yugoslav nations and to Kievan Rus. Methodius' followers spreading culture and literature: Climent in Ohrid, Sava, Naum, Gorazd. Centres of Slavic culture after Great Moravia: Prague, Kiev, Cracow, Novgorod, Ohrid. In Bulgaria, Methodius is commemorated on 17 July; the Methodius' cult was laid by the Czech king Charles IV.

■ **9th century** – Slovakia and Moravia abounded in spiritual Slavic culture reflecting the maturity of the Byzantine and Western-European letters; it was the basis of the civilisation of Central-European culture (**own state, own writing, own church province, accepted by the Frankish Empire - 884, own books, own liturgical language – Old Slavonic, successful foreign diplomatic policy**).

Central-European civilization area – Great Moravia, the cradle of material and spiritual culture; laid the foundations of a new literary language through which the Slavs got involved in the world cultural course of events throughout Europe. MIKULČICE: palace, 10 churches etc.

Total area:	49 035 km ²
Capital:	Bratislava
Length of state border:	1652,6 km
Population:	5 421 937 (as of 30. 9. 2009)
Political system:	Parliamentary democracy
Official language:	Slovak
Currency:	Euro, 1€ = 100 cents
Population density:	110,6 (per 1 km ²)
Time zone:	Central European Time (GMT +1 hour)
Country Telephone Code:	++421-

Location:

Slovakia is located in Central Europe. The relief of the country is characterised by great differences. In central and northern Slovakia the countryside is hilly, it is covered with the Carpathian mountain range. The countryside of the southern and eastern Slovakia is low.

Climate:

The territory of Slovakia is situated in the mild climatic belt with regular alternation of four seasons of the year. The average temperature is in winter - 2° C and in summer +21° C. January is the coldest month with night temperatures -10° C and -15° C, the warmest month is July with a daily maximum temperature of approximately +32° C.

National Holidays:

January, 1 st	Establishment of the Slovak Republic
July, 5 th	St. Cyril and St. Methodius Day

The national symbols of the Slovak Republic are the national emblem, the national flag, the national seal and the national anthem.

The national emblem of the Slovak Republic has a red, early Gothic shield with a silver double cross mounted on the central peak of the blue three hill group.

The national flag of the Slovak Republic is composed of three horizontal stripes - white, blue and red (with white at the top, followed by blue and red). In the front section of the national flag is the national emblem of the Slovak Republic.

MUST CEE BRATISLAVA

In the last decade, Bratislava continued to grow as a popular destination for major international businesses that had looked to set up their operations in one of the fastest developing economies of Central Europe. Moreover, the adoption of the Euro further integrates Bratislava as Slovakia's economic engine with the surrounding CENTROPE region. Despite of the ongoing global financial crisis and an expected slowdown in Slovak growth, Bratislava is likely to further create exciting opportunities, primarily for developers and occupiers, but also increasingly for investors, and features strongly on the real estate map as a rising **Central Eastern European star**.

 **BRATISLAVA**

Bratislava Region

Area: 2 053 km²
Number of villages: 73
Numbers of inhabitants in region: 610,850
Number of towns: 7
Number of districts: 8

The Bratislava self-governing region is a place with a glorious history, culture and education, a diverse countryside, a country producing excellent wines and cuisine inhabited by hospitable and generous people. It lies at the apex of the golden triangle which joins three European capitals – Vienna, Budapest and Bratislava, the capital of Slovakia. The Bratislava region is the smallest but the most developed and economically most productive region in Slovakia. It is the centre of commerce, banking and

services and it houses the highest state bodies of the Slovak Republic. Outside Bratislava are three distinct areas – the Malokarpatský region, Záhorie and the Danube lowlands.

Bratislava city

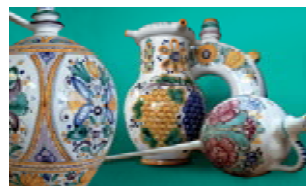

Bratislava is the metropolis of Slovakia. It is a prosperous venue close to two other capitals, Vienna and Budapest, which are also to be found on the Danube river. Bratislava offers a varied and ample choice for tourists. In the 21st century, it is again the crossroads of trade routes and the place where many

foreign companies have chosen to locate, bringing with them a cosmopolitan atmosphere.

Small Carpathians Region

The small Carpathians wine region is the most extensive of the six wine regions in Slovakia. Is full of history and tradition.. Producers from the most important wine - growing region in Slovakia combine in the

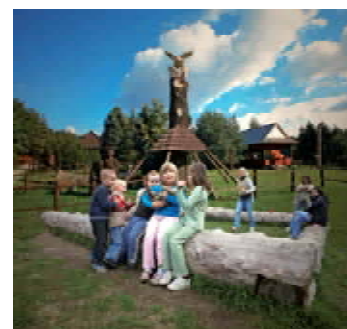

Small Carpathians Wine Route association. Wine from Modra is distinguished for its unique taste and bouquet, so also are the ceramics from here noted for their original ornamentation and color.

Záhorie Region

The Záhorská lowland is a paradise for fishermen, mushroom-pickers, horse-riding and the forests of the

Small Carpathians for hunters. Today's Záhorie is also home to an industrial-technological park and the car industry and this territory is restoring its natural economic and cultural bonds with Austria. In the Morava River valley you can find a cycling route starting in Devin and moving up to Vysoká pri Morave and

Záhorská Ves, where you can take a ferry to Austrian Angern.

Danube Lowlands Region

The Danube, Europe's second longest river, dominates the Danube lowland. Cyclotourists have at their disposal the most famous cyclopath in Europe – the international Danube route. The company Aquathermal Senec operates Aquapark Senec, a recreation and relaxation complex by the Sunny Lakes. The Esterházy manor house is one of the significant historical sites in the village of Bernolákovo. In the historical park near the manor house is the first 18-hole golf course in Slovakia was opened in 1995.

Variegated mosaic of Slovakia is made up of 8 regions, each of them offers something special and unique. Both local inhabitants and visitors from abroad realize great landscape diversity on a relatively small territory. A lot of regional and local specifics can be found almost everywhere. Contribution of our region into the treasury of beauties of Slovakia is harmony of the natural environment.

Office of the Self-governing Region of Trenčín

Mountains, which form a large part of the surface of the region, stretch around the valleys of rivers Nitra and Váh. Carpathians, well-known extensive mountain system in Europe, spread also on the Slovak territory. The part of it, known as White Carpathian Mountains, stretches in the Trenčín region. The highest point of the region is Vtáčnik peak (1348 m). Small Carpathian Mountains, Považský Inovec, Strážovské vrchy, Javorníky, Vtáčnik, Malá Fatra, Kremnické vrchy and Tribeč Mountains offer

opportunities for pleasant holidays, stays in nature, skiing, cycling, golf, equestrian sports, fishing and hunting. The Trenčín region has many springs of mineral water and thermal water, too. As a result, there are well-known health spas in Bojnica, Trenčianske Teplice, Nimnica and Bielice and several swimming pools with thermal water.

Panorama of the region is adorned with historical monuments, castles, churches and well-preserved complexes of burgher and folk architecture. They

A view of the Myjava Heights

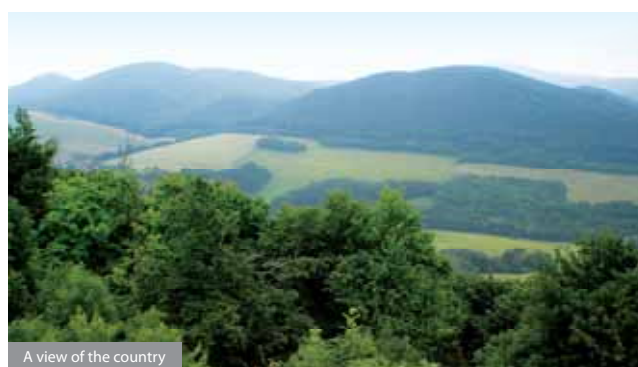

Vršatec Cliff

emphasize the antiquity of its history. There are plenty of historical monuments, castles, mansions and ruins. That is why the Trenčín region is usually called "The region of castles and legends". The most famous castles are the Trenčín castle, the Beckov castle, the Čachtice castle and the Bojnice castle which is the most visited romantic castle in Slovakia.

There are 32 museums operating in the region of Trenčín. They form a network of institutions which ensure the protection of the cultural heritage and its presentation to the public. They hide precious collections and documents and they are popular destinations for the visitors of our region.

The town of Trenčín, one of the oldest cities in Slovakia, is a seat of the region. It stretches on both banks of the river Váh. The charm of the town consists of unique partially preserved fortifications that create collection of medieval town architecture on the central square, baroque church of St. Francis Xavierius, Parish church of the Birth of Virgin Mary with carner located under the monumental Trenčín Castle.

A well-known monument of the Trenčín region is the memorial to the general M. R. Štefánik on the Bradlo hill in the town Brezová pod Bradlom. This native is a prestigious personage of the Europe. In history he enrolled as a scientist, an astronomer, a photographer, a pilot,

A view of the country

a general of the French army, a great diplomat, a defender of the rights of the Slovak nation and one of the founders of the Czechoslovak state in 1919. This year we celebrate the 130th anniversary of his birth. On 21st July 2009 the Štefánik's tomb on the

called Uhrovec, where a famous house can be found. Coincidentally, this house is the birthplace of two great personalities of Slovak history. There was born Ľudovít Štúr, a politician and a philologist, a codifier of the Slovak language, and a politician

Alexander Dubček was born there, too.

Another inducement for the visitors of our region is also great cultural festivals of folk art, modern music and film, historical celebrations at the castles and riding competitions.

A lot of gastronomic, cultural and accommodation facilities offer comfort, refreshment, relax and entertainment in the Trenčín region.

The Trenčín region is situated on the main development axis. Transport and technical infrastructure corridors of multi-regional importance and highway D1 traverse the region. There are public international airports in Prievidza and Slávnica. Both airports provide sightseeing and sport flights.

The Prešov Region

**PREŠOV
REGION**

Area: 8,993 km² (18.3% of the area of the Slovak Republic)
Inhabitants: 801,939 (14.8 % of the area of the Slovak Republic)
Population density: 89 inhabitants per 1 km²
Capital city of the region: Prešov

The territory of the Prešov Self-Governing Region houses an outstanding number of unique historic monuments along with undisturbed natural wealth.

Under its plan to identify the unique localities of the region, the Prešov Self-Governing Region announced a poll "Seeking the seven wonders of the Prešov Region". The aim of the poll was to find out which localities the citizens consider as the most beautiful and most interesting. The poll, in which almost 10,707 citizens participated, was conducted from 23 October 2008 to 20

January 2009. Get acquainted with the seven wonders of the Prešov Region – as decided by the citizens of the region.

the most sophisticated town fortifications in the Middle Ages, is also very unique. In 2000, Bardejov's historic centre was included on the UNESCO world heritage list.

The Ľubovňa Castle

The Ľubovňa Castle was built in the second half of the

and king of Madagascar Móric Beňovský is also connected with the bright history of the Castle, imprisoned there in 1768.

Today, there is an observatory with a 360° view of the Castle surroundings on the 6th floor of the Gothic tower Nebojsa.

Bardejov

Bardejov is one of the most beautiful towns in Slovakia. At the turn of the 14th and 15th century, trade and crafts got this Upper Šariš town to the pedestal of fame and wealth. The most important monuments are St. Egidius Basilica Minor with a unique collection of eleven wooden winged altars, and a Gothic-Renaissance building of the Town Council. Bardejov's fortification system, one of

13th century in the Northern bordering area of Hungary, serving for protection of the important trade route leading to Poland. Hungarian and Polish rulers held frequent meetings there. In 1412, King Sigismundus of Luxemburg pledged the Castle together with 13 towns of the Spiš region to the Polish king Vladislav II. In 1656 – 1661, the Polish coronation jewels were deposited there. The adventurer

The High Tatra National Park

The oldest national park in Slovakia, officially proclaimed on 01 January 1949. It is formed by the highest mountainous group within the Carpathian Arch. The highest peak is the Gerlach Peak (2,655 above sea-level). TANAP is subdivided into the Eastern Tatras and Western Tatras. The total area of the national park

is 73,800 ha. Almost five million of tourists visit the park each year. The hiking trails network is approximately 600 km long. Together with the Polish national park, the Tatras

voča in 1507-1518. It is made of basswood and is 18.6 m tall and 6.2 wide. The altar wings are decorated with relieves on one side and panel paintings on the other. The altar retable

have been listed as a UNESCO biosphere reservation. There are more than 170 mountain tarns in the High Tatras formed in glacial kettles.

Master Paul's Altar

The most important and a very unique monument of the town of Levoča is the Church of St. Jacob with eleven Gothic and Renaissance winged altars, including the tallest Gothic altar in the world. The unique late-Gothic altar of Virgin Mary and St. Jacob the Apostle, the tallest in the world, was made in the workshop of Master Paul from Le-

shelters monumental statutes: the Holy Virgin with child, St. Jacob the Older, and St. John the Apostle.

A complex of wooden churches

The wooden religious buildings of North-East Slovakia include the churches of Eastern ordinance ("cerkvy") and Western ordinance, and are situated in the districts of Bardejov, Humenné, Prešov, Snina, Stará Ľubovňa and Svidník. There are 26 wooden churches in total within the territory of the region. In 2008, a selection committee

included the Roman-Catholic Church of St. Francis of Assisi in Hervartov (1500), the Evangelical Articulate Church in Kežmarok (1717), the Greek-Catholic Church of St. Nicholas in Bodružal (1658), and the Greek-Catholic Church of St. Michael the Archangel in Lodomírová (1742) in the UNESCO list.

The Pieniny National Park

The area of the national park is 3,750 ha. Even though the Pieniny mountains are not big in dimension, the 35 km long mountain range is one of the most beautiful and precious natural areas in

towns in Slovakia. The main square retained its medieval rectangular form (3:1) and is one of the largest squares of this type in Europe. Together with the preserved Renaissance houses it shows evidence of the wealth of the town in the Middle Ages. The town is surrounded by a monumental fortification system. It is almost fully preserved: six of the 15 bastions and towers still exist, including three entrance gates: the Košice Gate, the Polish Gate and the Menhard Gate. From the 16th century up to 1922, Levoča was the capital of the Spiš District. In 1806-1826, Anton Povolný, an

Central Europe. The rafting on wooden rafts down the Dunajec river canyon is a unique attraction that one cannot experience anywhere else. Nineteen specially protected nature areas in total were proclaimed within the PIENAP territory.

Levoča

Levoča is an urban historical reservation. Thanks to the number of monuments and artistic jewels it is one of the most beautiful historic

architect from Eger, built an imposing office building – the Great District House, considered as the most beautiful district house in former Hungary.

Banská Bystrica

The Pearl of the Hron Region, the City under Urpín, the City of the Family – these traditional and modern characteristics associated

one of the most important and progressive mining companies in Europe at that period. The copper and silver of Banská Bystrica were exported to Antwerp, Nuremberg and Venice,

approximately twenty-thousand students. The city surroundings is rich in mineral springs, and provides suitable conditions for summer and winter tourism, sports and recreation. After many years of victories and falls, it meets the proverbial vision: "In Bystrica while alive, in heaven after death."

1947, the famous native of Banská Bystrica moved to Italy and shortly after to the United States of America, where he died in Berkeley, California on 26 October 1958. According to his last will, his remains were buried in the family tomb at the cemetery of Banská Bystrica. A tribute should be paid to him at every place where he lived, created and worked. Banská Bystrica in the heart of Slovakia will always remember its famous native with high respect.

The historical centre of the city

with Banská Bystrica will be extended by a new one this year. In 2010, Banská Bystrica will celebrate its 755th birthday. The history of Banská Bystrica dates back to the 13th century. Thanks to the families of Saxon colonists, the original Bystrica settlement grew into an economic, administrative and craft base of mining production. The importance of the settlement in this region increased to such extent that King Belo IV granted it the status of the town in 1255. The key milestone of the almost eight-hundred year long history of Banská Bystrica was the establishment of the Thurzo-Fugger Company, which introduced modern methods of copper mining and processing. The inhabitants of the town were directly governed by the ruler. The royal charter granted various privileges to them – the right of free mining of precious metals, or exemption from taxes, tolls and other fees. The early capitalist copper company largely supported by the Fugger capital became

and from there to all over the world. Banská Bystrica became known as the copper capital of Europe and earned the attribute the "Copper Bystrica". Another important, yet painful milestone in the life of the city was World War II and the Slovak National Uprising with Banská Bystrica at its centre. Throughout the centuries, Banská Bystrica became a social, administrative, cultural and education centre. In the city of eighty-thousand inhabitants there are several universities, attended by

When remembering his childhood years, the world-known architect I. M. Pei used to say that the very first construction that had attracted his interest in architecture was the Park Hotel building in Shanghai. This hotel was completed in 1934 and became the tallest building of the Far East. It was designed by Ladislav Hudec. The native of Banská Bystrica Ladislav Eduard Hudec was born on 08 January 1893 in the former Hungarian Empire. In 1910, he began studying at the Faculty of Architecture of the Hungarian Royal Technical University, which he completed in 1914. In the same year, Ladislav Hudec was recruited to army, and in June 1916 he was taken captive and interned in the prison camp in the Western Siberian town Khabarovsk. In November 1918, he managed to escape from the camp and got to Shanghai through Harbin, where he began working for the transoceanic company Kerry.

From the position of drawer, later business manager Ladislav Hudec rose to become senior architect and partner. The main works of this important architect of the 20th century's interwar period can be found in Shanghai. He designed around sixty structures in the period between 1918 and 1947. Most of his buildings are preserved even today, and one third of them were included in the list of protected historic monuments of the city of Shanghai. In

Barbakan - the area of the castle

Dunajská Streda

Dunajská Streda is a city in Southern Slovakia, located in Podunajská nížina (Danubian Lowland). It is part of the regional government in Trnava.

Dunajská Streda is the heart of Žitný Ostrov (Rye Island), within the triangle formed

feudal town. The modern city of Dunajská Streda was, according to the city chronicle, founded in 1874 by a merger of independent settlements Újfalu, Nemesszeg, Előtejed and Szerdahely.

Basic information:

Area: 48 km²

Population: 22,989

with water temperatures between 24 °C and 38 °C.

Sights:

The beautiful Vámbéry Square is dominated by the Gothic Roman Catholic church from the 14th Century. Renovated several times in the past, the interior is now in a Baroque style. The Protestant church on Hlavná ulica (Main Street) is from 1883. A synagogue once

Castle, a Baroque building, built by the city's well-known citizen and advocate, bishop Mikuláš Kondé, in 1770. The castle now hosts the Museum of Žitný Ostrov. Another beautiful building is Villa Vermes.

Well known personalities from Dunajská Streda:

Ármin Vámbéry, the famous scholar of the Orient, who lived in the second half of the

by three important cities: Bratislava, Vienna and Győr. It has about 25,000 inhabitants and is an urban center for about 100,000 citizens of the of Žitný Ostrov region.

History:

The city of Dunajská Streda grew from a settlement in the middle of Žitný Ostrov. The territory was inhabited as early as the Bronze Age, but there is historical evidence of the Roman Empire, as well as the Migration Period.

The city has a 950-year history as a market town. Since 1405, it has been a

Thermal baths:

The thermal spa in Dunajská Streda is among the most popular and most visited spas in the region. It offers healing mineral waters, a park, a small lake, swimming pools, a restaurant, several food stands, a bed and breakfast, and camping facilities.

The thermal water comes from 1,600 meters deep and on surface reaches 57 °C It is suited not only for swimming, but also has healing properties for locomotor and joint diseases.

The spa facilities, on 26 hectares, consist of six pools

stood on this street and it was the biggest temple in Žitný Ostrov. Unfortunately, the building was bombed in 1945 and its ruins were taken away. According to historical documents, a religious school was functioning in Dunajská Streda as early as the mid-17th Century and the first 8-year secondary school opened in 1938.

There are other valuable buildings that showcase to the visitor Dunajská Streda's rich history. One of the most prominent ones is the Yellow

19th Century, was a citizen of our town. He was an author of several travel books about the Near East.

Population density: 565 inhabitants/km²

Partner towns: Znojmo (Czech Republic), Fonyód (Hungary)

centre. The town cooperates with corporate entities and natural persons.

The town constitutes an important crossroad of Southern Slovakia. It has an excellent location in respect to road and railway connections. Nové

beauty of nature.

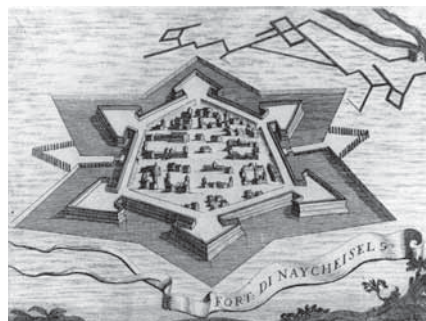

The town is proud of its renovated thermal open-air pool complex. It offers its visitors a wide range of possibilities for spending their free time at an area of 8 hectares. There are eight swimming pools within the complex, which are available during the summer season.

In the South-Western part of the town by the River Nitra,

There is a sport airport with in the town area, where an air show takes place every year. This show is visited not only by the citizens of Nové Zámky, but also by the inhabitants of the neighbouring villages and countries, and by diplomats and ambassadors, too.

The industrial zone is situated South of the town's built-up area. The town is planning to expand this area and to connect it to the technical infrastructure.

Key industrial sectors: machine industry, electrical engineering, agriculture, food industry, commercial and financial services

Nové Zámky was built in 1576 – 1580 as a modern Renaissance fortress located on the banks of the River Nitra. The town became famous when after the heavy fighting in 1685 it could free itself from Turkish dominion. After having been connected to the railway network in the 19th century, the economic importance of the town grew. Today, Nové Zámky with approximately 41,000 inhabitants is a modern town and a district

Zámky is situated 100 km away from the Capital City of Bratislava.

The other positive aspects include developed sports facilities and the preserved

there is the local forest park Berek, which offers unforgettable experiences to people of all ages. The forest park hides unique natural values and protected vestures.

Thanks to the favourable geographical position of the town and of its industrial zone, the industrial segments of the town are expected to be largely developed.

THE TOWN OF SPIŠSKÁ NOVÁ VES Gateway to the Slovak Paradise

Slovak Republic, Europe
N 48° 56' 39,01"
E 20° 34' 0,32"

Spišská Nová Ves with its more than 740-year long history is an ideal starting point for the lovers of tourism along harsh but picturesque gorges of the Slovak Paradise National Park, for the admirers of monuments included in the World Heritage List of the UNESCO and for those interested in obscure but even more precious Gothic Route monuments.

The town features the

216 km of tourist paths and 65 km of bike tracks.

The combination of nature, history and active relaxation in the middle of Spiš are complemented by other available natural beauties, among which belong the High Tatras which are just 30 km away, thermal swimming pools in nearby Vrbov, the nearby Pieniny National Park, the caves of the Slovenský Kras or the quickly reachable metropolises of Prešov and Košice.

In the future a large ski resort will be built up close to the town, which will enable an even better utilisation of

Spišská Nová Ves as a place for year-long relaxation and entertainment.

An increasing interest in Spišská Nová Ves is reflected every year in the growing number of its visitors, services concentrated not only in its centre and also in increased business activity.

Spišská Nová Ves - this is the gateway to the Slovak Paradise.

longest lens shaped square in Europe, the highest publicly accessible church tower in Slovakia (87 m high), the smallest and youngest ZOO in Slovakia. A rich offer of cultural and sports events all year round provides sufficient opportunities for a pleasant stay. The town is also attractive thanks to a theatre, cinemas, gallery, museum, indoor swimming pool and a lido, tennis courts, saunas, a riding area and suburban sports airfield, where you can take your first parachute or tandem jumps.

In its surroundings there are the longest river canyon in Slovakia, 25 named waterfalls in 8 accessible rocky gorges,

Brezová pod Bradlom

The town with almost 5,400 inhabitants lies in the picturesque region of Western Slovakia at the foothill of the Small Carpathian Mountains. The first written mention about the town dates back to as early as the 13th century. Brezová is a town with rich history; it was the home or place of work for many important personalities. The town houses several memorials and national cultural monuments.

The Bradlo Hill (544 m) with the burial mound of Milan Rastislav Štefánik rises over the town. The dominating structure of this region and, at the same time, one of the most important cultural monuments of Slovakia was designed by architect Dušan Jurkovič. There is a beautiful view of the whole region

of Kopanice from the burial mound. Having been included in the list of European Culture Heritage in 2009, the Bradlo tumulus became one of the 64 most precious European monuments. Every year in May, a tribute is paid to Milan Rastislav Štefánik at the Bradlo Hill.

Thanks to its exceptional location and natural environment, the town and its surroundings offer vast opportunities for leisure time activities. The tourist walkways, cycle tracks, a ski slope or the water reservoir offer excellent sports opportunities. The town has a modern area with football playgrounds, tennis courts, swimming pools, beach volleyball playgrounds, sauna and fitness centre. There are also several multi-purpose sports grounds and children playgrounds.

The most attractive of the sports events are the international Bradlo Grand Prix cycling competition, the Slovak Championship in mountain cycling, the Slovak Championship in beach handball, and the football matches.

At present, the town is preparing and implementing several projects focused on

improving the life style of the inhabitants and visitors of our town.

The Town of Kežmarok

Kežmarok is a town with rich history. It is situated below the High Tatras in the northern part of Slovakia. The town was granted city rights in 1269. As

was proclaimed a sight of historical significance and thus it is protected by law from unsuitable development, an advantage shared by only 16 towns in

Slovakia.

There are many sights of historical importance here – the Lyceum that has one of the largest historical school li-

braries in Central Europe, old Wooden Protestant Church that is on the list of the World Cultural Heritage of UNESCO or the castle situated in the center of the town. The town has 17,000 inhabitants. The large quantity of cultural and historical sights and favourable natural conditions form

Slovakia, especially in water-polo and canoe. The water-polo players' team is the multi-champion of Slovakia. The canoeists have achieved considerable results at the European and world level.

The citizens and tourists can spend their free time visiting

Town of Zvolen

The town of Zvolen is the centre of Pohronie, it has a rich history dating back 760 years.

Once a royal town, today Zvolen is a district centre with a vibrant active life. Visitors are

tival Zvolen Castle Plays takes place. The heart of the town is the **SNP Square** and the pedestrian area, which is lined by old burgher houses and the church of St. Elisabeth. Of top value worth seeing is the historic and cultural monument **Pustý hrad**, since 1172

it has been an important centre of the royal comitatus. The castle ruin covers an area of

armoured trains

built in the Zvolen railway works during the Slovak National Uprising as a symbol of the resistance of Slovak nation against fascism.

In town there is the J. G. Tajovský Theatre, Museum of Forestry and Wood processing, and the Technical University which trains specialists of forestry and wood processing. The municipal swimming bath, the Neresnica swimming bath, and the **spas** of Kováčova and Sliač offer recreation opportunities in summer. In winter,

SNP Square

the ice stadium and the ski and sports resort of Kráľová serve for recreation.

Zvolen Castle

greeted by the **Zvolen Castle**, which dominates the town. It was built as the hunting lodge of King Louis I, the Great of Anjou. Presently, it houses a seat of the Slovak National Gallery. Every year, in the castle grounds the international theatre and opera fes-

7.6 ha and belongs to the largest in Europe.

Close to the centre of the city is situated one of three

The walls of Deserted Castle (Pustý hrad)

Žiar nad Hronom

The town of Žiar nad Hronom is located in Banská Bystrica Region, in the Žiar Basin of the Middle Hron area. It lies largely in the right terrace of the Hron River. The cadastral area of the town is 40.0 km². There has been a natural crossroad of important communication connections in this territory. The roads leaving the town in the form of rays lead to Prievidza, Nitra, Zvolen and Martin. The railway route Bratislava – Zvolen crosses the town. Žiar nad Hronom lies at a distance of 30 km from Banská Bystrica, and 175 km from Bratislava. The Hron River flows through the Žiar Basin and the town of Žiar nad Hronom. The town has approximately 19,805 inhabitants. The population density is 517.69 per km².

History

The first written mention about the Holy Cross (Svätý križ) settlement dates back to 1075. The Holy Cross settlement was granted the status of a town in 1246. During the anti-Habsburg uprising in the 17th century, several decisive battles took place between the rebels and the emperor's army. The inhabitants of Holy Cross suffered greatly from the armies' stay. In the 19th century, Holy

Cross became one of the centres of the national liberation movement of the Slovaks. Štefan Moyses, Bishop of Banská Bystrica, First Secretary of Matica slovenská and one of the most important personalities of the national resurrection had his seat in the town's manor house. He is buried in the crypt of the Church of the Holy Cross Elevation. A new age of the town history began in the 1950's. As a result of aluminium works construction, the number of inhabitants grew from less than 2,000 to 20,000, and the town got a new name – Žiar nad Hronom. It later became the residential town of the district.

The town today

Today's Žiar nad Hronom is a dynamically developing industrial and administrative centre of the Middle Hron region. The town houses several state administration institutions. The former ZSNP area was transformed in 2003 into a brown industrial park, where more than 150 businesses have their seats. With its annual turnover, this park is one of the largest ones in Slovakia. Besides Slovak firms, also companies owned by foreign investors run their activities there, e. g. companies from Norway, Sweden, Mexico, Spain, France or Luxembourg. The dominant company is Slovalco, a. s. Žiar nad Hronom, producer of

primary aluminium, which currently pays the highest average wage in the region of Banská Bystrica.

The school network consists of four elementary and four secondary schools. There is a hospital with a polyclinic in the town, serving also the districts of Žarnovica and Banská Štiavnica. The cultural life in Žiar is mainly organised by the Municipal Cultural Centre. The Hron Education Centre and the Regional Observatory and Planetarium of Maximilian Hell also have their seats in the town.

The inhabitants and visitors of Žiar nad Hronom can relax in the swimming-pool, beach pools, modern public sports grounds and children playgrounds, or in private sports and wellness facilities. A popular rest zone for Žiar citizens is the Park of Štefan

Moyses, one of the most beautiful municipal parks in Slovakia, registered as a national cultural monument. Close to the town, there are the ruins of the medieval Castle of Šášov.

The wider surroundings of the town, especially the region of Kremnica and Štiavnica, offers suitable conditions for summer and winter tourism and for relax in thermal spa (Sklené Teplice, Vyhne).

Mesto pri ňom

DETVA

DETVA is situated in the heart of Slovakia, about 220 km from Slovak capital Bratislava.

It is the centre of Podpolanie region, one of the most original Slovak regions. From 1996 Detva is the centre of the district. Its area is 6,809 hectares and it has about 15,000 inhabitants.

Geographical location of Detva in the centre of Slovakia enables good traffic connection with the neighbouring regions as about roads and railways. The road I/50 (Bratislava – Zvolen – Lučenec – Košice) is the traffic axis of the area. It will be soon improved by building the R2 highway. Detva is connected with the railway line Zvolen – Lenártovce – Košice, which runs through southern part of the town. The nearest cargo railway stations are in neighbouring villages Víglaš and Kriváň. Airport in Sliač is only 27 km from Detva.

Good technical and civic infrastructure is available in the town. In the Strategy of Slovak Republic Improvement Detva is one of innovative progress poles.

Business and employment support is one of the priorities so

that the new business zones are being created.

With the EU support of its structural funds Detva town realized reconstruction of some producing parts in PPS factory.

Detva owns also allotments of 11 ha area, which is considered to be the future industrial park Detva – Trstená.

In southern part of Detva there are some areas and building sites of stores, services and production.

Potential of Detva and its surrounding is not used properly. There is a good opportunity not only for visit and getting known of this region but also for investment into business and living in this environmentally pure, clean and beautiful town in the heart of Slovakia.

Air transport

There are 6 international airports in Slovakia that can be used for both passenger and cargo flights:

- M.R.Štefánik airport Bratislava,
- Airport Košice,
- Airport Poprad-Tatry,
- Airport Sliač,
- Airport Piešťany
- and Airport Žilina.

As the potential of Slovak airports is not yet fully exploited, regular and also irregular connection of Slovakia to Europe and the rest of the world is secured through Vienna Schwechat airport. Schwechat airport is the main international airport of Austria and is only 50 km distant from Bratislava. There is also regular train and bus connection between Bratislava and Schwechat. Another large international airport accessible is Budapest airport, main airport of Hungary, distant 250 km from Bratislava. It is also possible to use airport Ruzyne in Prague that has regular flights to M. R. Štefánik airport in Bratislava.

3500 Series Machinery Protection System

Bently Nevada™ Asset Condition Monitoring

GE
Energy

Optimization and Control

GE Energy - Optimization and Control

offer complex solution for Monitoring and Control your machinery and asset.

Bently Nevada is known as global leading company offering information and services about mechanical and thermodynamic condition of your machinery and asset.

We are serving the largest installed base on continuous monitoring systems of critical machines.

Our solution is essential part of your effective strategy of Plant Asset Management.

**MicroStep
Group®**

- Supplier of:**
- **CNC cutting machines for cutting with laser, plasma, waterjet, oxyfuel and 3D mill**
 - **advanced control systems for machine tools**
 - **CAM software with custom modules**

MicroStep, spol. s r.o., Tomášikova 28, 821 01 Bratislava
tel: +421-2-4341 1169, fax: +421-2-4333 9987

e-mail: marketing@microstep.sk
www.microstep-group.com

The company **MicroStep, spol. s r.o.** was established in 1991 by members of the *Department of Control and Automation, Faculty of Electrical Engineering and Information Technology, Slovak University of Technology* in Bratislava. It is the mother company of MicroStep Group® – a group of companies focused on development, production and sales of CNC cutting machines and supply of control systems and software products to power industry, rubber industry, automobile industry and mechanical engineering.

In the area of mechanical engineering, MicroStep, spol. s r.o. is an OEM of machines for cutting of materials based on energy-beam technologies: laser, plasma, oxyfuel, waterjet and high speed spindles. Through a network of 3 daughter companies and 35 authorized representatives the company delivers CNC cutting machines to 50 countries worldwide, whereby over 90% of production is for export outside of Slovakia.

MicroStep CNC cutting machines are equipped with technological equipment of leading world manufacturers – Hypertherm and Kjellberg plasma sources, Rofin and PRC laser sources, KMT and Böhler waterjet systems, Donaldson, Kemper and TEKA filter units etc. All of MicroStep machines have possibility of custom configuration – customer can choose the size of working area, number and type of cutting heads, type of plasma or laser source, filter unit, cutting table... As a manufacturer of not only

machine mechanics, but also of control system and CAM software is MicroStep able to deliver special solutions and customer specific applications with combinations of several technologies on single machine. Most of standard sheet metal cutting facilities can be enhanced by pipe and profile cutting units in a shaft along the cutting table and by additional technological heads which allow e.g. bevel cutting up to 50° with plasma, waterjet and oxyfuel, drilling and tapping (with automatic tool exchange), marking of materials by ink, zinc powder, plasma arc or punch, automatic plate alignment by laser sensor with plate size detection feature or scanning of shape of template with CCD camera. Advanced control system with touch-screen user interface allows to prepare cutting programs simultaneously with cutting process, manage cutting plan in zones, remotely monitor and manage machine through web-based intranet applications, integrate machine into PPS and database systems and to provide remote diagnostics and maintenance via Internet.

MicroStep
 spol. s r. o.

FINALCAST[®]

Aluminium Castings

Viac ako 40 rokov znalostí a skúseností

- výroba hliníkových odliatkov
- gravitačné hliníkové odliatky
- nízkotlakové hliníkové odliatky

More than 40 years of knowledge and experience

- production of aluminium castings
- gravity die castings
- low pressure die castings

FINALCAST[®]

Aluminium Castings

History of aluminium castings production dates back to 5 April 1967, when the first casting was produced at ZSNP, a.s. – division Finalcast.

Nowadays, the following two casting technologies are in operation at Finalcast: the gravity die casting and the low pressure die casting.

GRAVITY DIE CASTING

The main advantage of gravity die casting technology is its flexibility enabling the production of aluminium castings of great complexity. This feature is particularly valuable and advantageous when castings of specific shape and dimensions are desired. Inner casting shaping is carried out using sand cores: CT, CB and CRONING production methods are used for sand cores production.

LOW PRESSURE DIE CASTING

Low pressure die casting technology is suitable for the production of large-sized castings, meeting both

demanding requirements and specifications concerning dimensions and weight, as well as oil- and water-proof characteristics. Using the technology aluminium alloys castings up to 1.2 m in diameter and up to 35 kg in weight can be produced.

FINISHING OPERATIONS

Better mechanical, structural and surface-quality properties are ensured by the following finishing, or "after-production" operations:

- shot blasting with CrNi40, Cr40, GRANOX40,
- tumbling - vibratory deburring/cleaning of castings,
- impregnation,
- heat treatment,
- milling and turning using CNC equipment,
- castings degreasing.

HEAT TREATMENT

Finalcast offers apart from production of aluminium castings also heat treatment services for aluminium alloys castings with annual capacity 3 000 – 5000 MT.

The heat treatment process is certified according to ISO 9001:2001, OHSAS 18001:1999 and ISO 14001:2005.

Agri-food complex - and particularly within the agricultural primary production - finds itself in a particularly difficult situation. They have lost a balanced relationship between crop and animal production, there has been a collapse of sales prices of most commodities and agrarian core of existential threat to the very business of land. People in agriculture, including many executives are beginning to settle deep skepticism in our industry do not see any perspective. It is high time to stop the decline of agricultural sector and start saving. Essentially, we can say that our industry will be to try to save everything that can still save.

There has problems almost all primary agricultural production, because it fails to adequately monetize their productions. In recent years, largely avoiding the accumulation of a price decline of most agrarian commodities than now. Although the dynamics of price trends for agricultural products in total almost always fall short of growth in input prices, appropriate restructuring of production and distribution business risk, these impacts can be mitigated at least partially. But now farmers do not have any "strong" commodity, for which they could be relied upon to stabilize its economy. Nothing to alter or slow the increase in purchase prices of raw cow's milk, which recently started there. Their level is still not cover production costs only alleviates previous significant losses. Farmers expect better monetization of food grain and corn. Similarly, sales of feed grain to deliver the expected effects, although demand in the marketplace begins with a slightly refreshed. Neither the sale of slaughter pigs, cattle or poultry farmers are not cheering. Such an unfavorable situation in almost all commodities at the same time there has been a long time. We consider it our duty to warn, because many companies can bring to the current trend collapse.

The solutions are clear. Our Chamber of them in a concise form the government raise already in April 2009. It is the utmost to mobilize all domestic resources and support to accelerate the flow of the primary agricultural production. We believe, however, that should wake up and Brussels, from which we expect more flexible approaches to the preparation and running of the intervention system and other measures to eliminate the negative effects of natural market fluctuations. Our analysis shows that, the annual production of commodities with significant turbulence, in excess of 30% and between 10-20% in comparison with long-term averages. Also it is necessary to revise the instruments of the Common Agricultural Policy, which in its current form fails to promote sustainable agricultural development. Fluctuations in revenue particularly in enterprises that operate in a weaker economic environment,

which includes Slovakia, limiting the effective use of aid and mouth to reduce the creation of added value. The resulting system solution should maintain the utmost discretion market producers, consumers and storage agents, as are markets and reasonable standard. Interests of individual countries and across the EU would be the economic framework of the commodities markets were stable and not turbulent. Public resources and activities should be given to the word only if producers can not realize their goods during a period of a reasonable value added, namely those periods in which we currently find themselves. Thought to be offsetting the negative impact of severe price fluctuations on producers. In the world there are already some systems, therefore we can not remain inactive.

The biggest problem is the biological nature of agricultural production and its substantial dependence on weather and wind conditions. As climate change makes natural effects of growing less predictable, inherent volatility of agrarian markets will increase further. We believe that it must comply with new approaches to managing risks in agricultural production, which will always rotate more productive years to less fertile and should be in the interests of each company to know not only eliminate their impact on producers but also consumers.

Regarding the EU, we are not satisfied with more concrete actions and proposals by the European Commission wants to apply the EU common agricultural policy. A concrete example is the reform of the sugar and milk are not delivering the expected effects and lead only to reduce production in the new member countries. Similarly, it is set in the reform of the wine market, which in turn limit its production in those countries that are the source of overproduction. We believe that the Commission should change the overall philosophy of its approach to agricultural policy and the move from the current defensive when trying to solve every problem in principle only by limiting production to more aggressive penetrations to third markets. Instead of abatement programs, in our view, should encourage reduction of production costs and increasing competitiveness of European productions worldwide. That is it, what we and our members in positions of Brussels very lacking.

Ing. Milan SEMANČÍK
President of the Slovak Agricultural and Food Chamber

**Slovak Agricultural
and Food Chamber**

Záhradnícka, 21
SK-811 07 Bratislava 1
tel.: +421-2-5557 1003
fax: +421-2-5556 4800
e-mail: sppk@sppk.sk
<http://www.sppk.sk>

Slovak Agricultural and Food Chamber (SPPK) represents non-governmental, autonomous and statutory undertaker which was established in line with the Law No.30/1992 Coll. as amended. The basic role of the Chamber is to push forward the justified common interests of its members, mainly in the process of the agricultural and social policy setting. Chamber also takes part in the creation of the state policy concerning the support and protection of its member entrepreneurs to ensure the further development of agricultural production and food processing in the Slovak Republic.

Membership

The members of SPPK are natural and legal persons providing the business activities in agriculture, food industry and in biological, technical and commercial services for agriculture and food processing industry, as well as the other non-governmental organisations operating in the agri-business. The membership in the Chamber is voluntary since January 2005, according to the changes made to the Law. By September 30st 2005t, SPPK registers 2 108 member organisations, of which 1 803 members come from the agricultural primary production, 155 members come from the food processing industry, 111 of the members are providers of the services for agriculture and there are also 39 other organisations, mostly coming from the field of science, research, schools etc.

Internal organization

Central office in Bratislava with 15 employees and the net of 41 regional agricultural and food chambers (RPPK) operating in Slovakia. The "regional" chamber can be established also on the other than just territorial basis. This change in the wording as well as the principle of the voluntary membership was set out in the Law No.546/2004 Coll. which amended the original Law No.30/1992 Coll. on the Slovak Agricultural and Food Chamber. There are also four subjects with the statute of RPPK in accordance to the Statute of SPPK and the Law above. The activities of the Chamber are supervised by the official bodies – the General Assembly, the General Management, the President and the Supervisory board. General Assembly composed of the delegates voted by representatives of the member subjects. The General Assembly approves the Statute of the Chamber, its Electoral system, the Rule of procedure and also votes on the President, Vice-presidents, the members of the General Management and the Supervisory board. The General Management is the executive body which administrates the proceeding of the Chamber. The President is

on the head of the Chamber and the General Management, he monitors the functioning of the Chamber central office and fulfils his duties set in Status, orders of the General Assembly or the Management. The Supervisory board represents the highest body controlling all the activities of the Chamber.

Internal Communication

The Chamber is using the wide-spread net of its regional chambers in the whole territory of Slovakia. The central office communicates with the regional chambers using the internet and emails, but also regular meetings to discuss the actual issues. The Slovak Agricultural and Food Chamber is the only autonomous organisation in the Slovak Republic combining the entrepreneurs operating in agricultural primary production, food processing industry and services for agriculture. SPPK is communicating also to its member associations as well as to the other agricultural autonomous organisations. All the members of SPPK have direct access to the office in which they are registered, but also to the central office in Bratislava.

Activities

The Chamber's activities are concerned on:

- Legislative – legal sector
- Providing of business information service
- Guidance and education
- Co – operation with the international organizations

Membership in international organizations

1. International European farmers organization COPA/COGECA
2. Confederation of the food and drink industries CIAA

Co-operation with national and international partners

The Chamber is co-operating and communicating also with the state bodies accordingly to the conditions set out in the Law and in the Agreement on a Co-operation between the Council of the Agricultural Statutory Undertakers and the Ministry of Agriculture of the Slovak Republic to search for the solutions of the problems in agriculture and food sector. SPPK pays extra attention to development of the international contacts and took the initiative of the periodical meetings of the representatives of the agricultural chambers from the "Visegrad four" countries (Slovakia, Czech Republic, Hungary and Poland). The Chamber is communicating also to other agricultural chambers within the European Union.

Dear Sirs,

Slovak Chamber of Commerce and Industry as a member of International Chamber of Commerce in Paris and member of Eurochambers in Brusel is a statutory acted in whole Slovakia, which represents and coordinates common interests of members in domestic and foreign business activities.

Slovak Chamber of Commerce and Industry was constituted by Law No. 9/1992 in 1992, raised on rich experiences from activities of Chambers of Commerce and Industry in the territory Slovakia, which history stretch back to the half of 19. century. In the year 2010 we celebrate the 160th anniversary of chambers creation in Slovakia. Dimension of these chambers far and away exceeded the economy border what helped to keep national identity and economic, cultural and social life development in Slovakia.

Slovak Chamber of Commerce and Industry for whole bygone period was the important institution in the process of changes. Institution, which by respecting rules of game is recognized by others and using this position to assert interests of Slovak economy in abroad and to create position of business branch in domestic social environment.

The basic relation and structures for direct participation of Slovak business structures to global and European markets has been created by Chamber in the past. The creation of Slovak Committee for Business and Industry (BIAC) by OECD, Economic and Social Council (ECOSOC) as consultative body of European Commission and National Council of International Chamber of Commerce in Slovakia represent principal steps to worthful participation of slovak economic subjects on decision making process in international economy.

The Chamber as a business institution wants to support changes in regional and occupational structures for economic development of Slovak Republic, for development and business protection, development and international trade alleviation and increase competitiveness of Slovak business subjects. The Chamber will support development of private entrepreneurship, will contribute to the long term strategy of development of econ-

omy of Slovak republic. In close cooperation with National Bank of Slovakia chamber participated in the process of preparation of slovak companies to implementation of euro currency in Slovakia from January, 2009. Chamber will continue in supporting mainly SME's to penetrate more actively to the unified market of EU 27 as well as to the market of third countries.

The Chamber on behalf of service approach to own members and also non members and foreign partners has costituted 8 regional chambers in residence of all regions and further 4 offices in important business centres of Slovakia. Chamber has created 8 consultative bodies, representing namely legislative, economic, foreign trade, industrial, informatic, inovation and education. Apart of this there are 18 special departments with whole Slovakia activity, which are created based on principle relation of line of business.

Our today's role is to contribute to the economic and social transformation and to her reform to society of prosperity and perspective. The Chamber feels own liability also for active connection of Slovakia to global flow in the area of knowledge, finance, technology, industry and trade.

We are sensible to the fact, that in the period of continuing world economy internationalization and global process the international trade and international business are one of the most important atributes for assurance of steady and sustainable development.

I am sure that also this publication can partially contribute to improvement of the trade and economic relations and contacts of Slovak business subjects with foreign partners.

**SLOVAK CHAMBER
OF COMMERCE AND INDUSTRY**

Peter MIHÓK
President SCCI

BRIDGE TO THE WORLD OF BUSINESS

Dear Partners,

Your decision to do business in Slovakia is a wise one. The Slovak Republic is well known for its high level of culture, qualified workforce, advantageous geographical position in the centre of Europe on the border between the West and the East, favourable taxation system, and extensive transport communication network. To do business in Slovakia means to hold a stake in the expansion of a region which, in the future, will have increasing significance for European trade and prosperity. Your investments and personal effort will therefore soon be rewarded with a fast return and high profit. During the course of your business activities, you will often need help and advice from someone who is familiar with this environment and who has been active in it from the very beginning. That is why the Slovak Chamber of Commerce and Industry (SCCI) wants to be your first point of contact and your partner when entering Slovakia. The SCCI is an independent public and legal institution which, in a similar way to the Chamber of Commerce in your home country, provides a full range of services to its members and other domestic business groups, as well as interested parties from abroad.

We will provide you with valuable contacts!

Some things that the SCCI will arrange for you:

- ✓ contacts with domestic businesses
- ✓ contacts with professionally-oriented sections
- ✓ finding suppliers
- ✓ finding manufacturers
- ✓ finding importers
- ✓ finding companies suitable for joint ventures and acquisitions
- ✓ the corporate profiles of companies and institutions
- ✓ in the event of your visit, recommendations and the organisation of meetings, including secretarial services, accommodation, transport, etc.
- ✓ advertising in the SCCI newsletter, which is distributed to all SCCI members, as well as foreign consular offices in the Slovak Republic, consular offices of the Slovak Republic abroad, representative offices of foreign companies in Slovakia, government institutions, and Slovak businesses.

We will prepare the ground for you!

For your trade mission in the Slovak Republic, the SCCI will arrange:

- ✓ meetings with Slovak businesses
- ✓ a comprehensive programme for mission participants (accommodation, transport, cultural programmes, and other services on request)
- ✓ background information required for negotiations

We will meet all your needs!

For seminars, lectures, or training the SCCI offers:

- ✓ the attendance of Slovak participants
- ✓ a venue, including the necessary equipment (audio-video), translations, and refreshments
- ✓ advertising, invitations, and media publicity
- ✓ accommodation, transport, and transfers

We will introduce you to a specific environment!

In addition, upon request, the SCCI can arrange:

- ✓ marketing studies
- ✓ statistical overviews
- ✓ consultations on legal, financial, taxation, and customs matters
- ✓ information on business conditions and opportunities
- ✓ translations of acts, rules, and regulations
- ✓ information on import regulations (limits, quotas, restrictions, and certifications)
- ✓ participation at exhibitions and trade fairs
- ✓ information about options and conditions for investing, capital investment, and private ownership in the Slovak Republic
- ✓ interpreting and translation services
- ✓ other services upon request

Arbitration Court

The Arbitration Court of the SCCI is an independent body that also offers its services to you. It resolves property claims between entrepreneurs arising from business and economic relations. It realises consultation and advisory activities to settle such claims.

Information on investment conditions in the Slovak Republic is available in all offices of the SCCI.

The Region of Banská Bystrica

The region of Banská Bystrica is located directly at the Centre of Slovakia and it comprises 8 districts. Its territory covers an area of 5.129 sq. km and its population is 397 356. The centre of the region is the city of Banská Bystrica with a population of almost 90 000.

The region is connected to the international road and rail network. Sliač airport, which is situated just ten minutes by car from Banská Bystrica, offers new possibilities for air transport of persons as well as goods.

Existence of thermal medicinal springs offers a significant possibility for development of tourism. In the spas of Sklené Teplice, Dudince, Sliač, Kováčová and Brusno are treated nervous, kinetic and digestive disorders and cardiovascular diseases. Natural and climatic conditions also create good opportunities for tourism, agro-tourism, winter and water sports and hunting.

Attention of tourists has been turned to urban monumental reservations in Banská Bystrica, Banská Štiavnica and Kremnica. Banská Štiavnica town, together with its surrounding area has been registered by UNESCO as the world cultural and natural heritage.

Among other interesting places belong castles in Zvolen, Víglaš and Slovenská Ľupča; fort in Bzovík; wooden church in Hronsek; St. John's church, where the geographical centre of Europe is located; folk architecture of the mining settlement Špania Dolina; attractive Čiernohorská narrow-gauge railway in Čierny Balog.

Raw material base of the region is various. Concerning the ore raw materials, the deposits of golden and silver ores, lead, copper and zinc are historically known around Banská Bystrica, Štiavnica and Kremnica.

Resources of non-metallic raw materials are more important from economic point of view. There are resources of building stones in the region such as limestone, dolomite limestone, ceramic clay, brick earth, gravel and gravel sand, basalt and perlite. Very important are also resources of wood substance.

Natural originality of the region is emphasized by state natural reservations, number of protected natural creations and localities. Geographically, the region includes National Park Low Tatras, protected scenic area Veľká Fatra, Poľana and Štiavnické Vrchy.

The education in the region is provided by the system of 338 elementary schools, 25 grammar schools and 61 secondary vocation schools. There are also two universities in the region. The University of Matej Bel in Banská Bystrica, specialised in the field of human sciences and the Technical University in Zvolen.

The region of Banská Bystrica is characteristic by notable diversification of industrial sphere, however, economic potential of individual districts has its own specifications.

The most important industrial sectors include heavy engineering and machinery, metallurgy, building industry, wood processing and paper industries, chemical and pharmaceutical industries, textile and food industries. 7 % of the total number of Slovak enterprises operate on the territory of the region. There are 933 companies with foreign capital in the region. The most successful of them are Slovalco, a.s. Žiar nad Hronom, Knauf Insulation, s.r.o. Nová Baňa, Evonik Fermas s.r.o. Slovenská Ľupča, Witzemann Slovakia, spol. s r.o. Vlkanová, Küster - automobilová technika spol. s r.o. Vlkanová. Also foreign companies do business in the region, such as Coca Cola, McDonald's, Tesco Stores, Billa, Baumax, Ahold etc.

The priority of development of the region is to stay attractive for foreign investors. As the main reasons to invest in the region are considered:

- favourable location, proximity of an airport with an international statute
- ideal conditions for further development of tourism
- raw material and economic basis available
- freely available qualified and highly specialised labour force
- high proportion of persons with higher education

The Region of Bratislava

Bratislava, the capital of the Slovak Republic, is a town which **location** at the confluence of the rivers Danube and Moravia, on the ridge of the Little Carpathian Mountains and **next to the place where Austrian, Hungarian and Slovak frontiers** meet in one point, has, since time immemorial predetermined the role Bratislava as an important defence point, trading place, crossroads of transport routes, area of political life, business, financial services, industry, agriculture, culture and sport.

Whether called Preslau, Pressburg, Pozsony or Bratislava, the policy, education and good wines have dominated its atmosphere. Nowadays, Bratislava and Bratislava Region became to be the most developed Region of Slovakia from economical, social, research and technical point of view.

The strongest economic position (27% of GDP) of Bratislava among Slovak regions mirrors also a strong position of Bratislava Regional Chamber in a structure of Slovak Chamber of Commerce and Industry.

The Region of Košice

THE BASIC INFORMATION

The modern history of Košice Regional Chamber starts in the year 1992 when it was re-established according to the Act No. 9/1992 passed by National Council of Slovakia concerning chambers of commerce and industry. At the same time, The Slovak Chamber of Commerce and Industry was established as an independent legal subject. The present activities of the Košice Regional Chamber of Slovak Chamber of Commerce and Industry are very closely connected with the Chamber's history which goes to the year 1850. This fact proves, that Košice Regional Chamber is the oldest chamber in the territory of Slovakia and one of the oldest in Central Europe.

The Košice Regional Chamber represents member companies of the whole Košice Region and plays an important role in domestic and foreign trade with special attention to the markets of the Eastern Europe and Russia.

The Košice region is located in the eastern part of the Slovak Republic with an area that exceeds 6700 km² and has more than 765 thousand inhabitants. Nowadays, Slovak authorities have registered more than 30 thousand entrepreneurial entities with all types of business activities within the Košice Region. The most important kinds of industries allocated in the region are: metallurgy, engineering, chemistry and textile production.

PROVIDED ACTIVITIES AND SERVICES

- Co-operation with commercial and industrial chambers abroad (organising business missions, seminars, meetings on economic co-operation, publication of commercial promotions, seeking trading partners, exchange of commercial policy documents and other information),
- Consultancy on legal, financial, commercial and customs issues,
- Customs and certification services (issue of ATA Carnets, authentication of certificates of origin of goods, commercial invoices, powers of attorney, "force majeure", contracts, letters of reference),
- Librarian and information services (contact data of foreign and domestic companies and other information concerning trade conditions and doing business in selected countries).
- Educational activities (organising seminars, workshops and conferences on current issues of International trade, trade logistics and business.)
- Publication activities (specialised publications for support of business and reduction of trade risks, publication of current general standards in international trade, publications concerning technical, economic and legislative issues.)
- Facilitation in property disputes in international trade of domestic subjects at the Court of Arbitration of Slovak Chamber of Commerce and Industry in Bratislava.
- Promotion of members of Slovak Chamber of Commerce and Industry through the network of the International Chamber of Commerce in Paris and other information media in co-operation with chambers of commerce and industry abroad and branch offices of the World Trade Center.
- Mediation and publications of business opportunities, offers and other business information for foreign and domestic companies. Presentation and representation of members of the Chamber at domestic and foreign exhibitions and other events.
- Co-operation with representative offices of the Slovak Republic abroad.
- Co-operation with embassies of the Slovak Republic and their commercial sections.

The Region of Nitra

The Nitra Region in the Context of Foreign Investments

Only very few Slovak regions have such excellent preconditions for the development of international contacts and cooperations as has the Nitra region. This region extends from the mountain ranges Povazsky Inovec and Tribec in the north to the river Danube in the south and geographically it covers the prevailing part of South-western Slovakia.

This region is identic with the chamber region of the Regional Chamber of Commerce and Industry Nitra. The chamber region begins appr. 80 km easternly from the Slovak capital Bratislava and is surrounded by the another chamber regions Trnava, Trenčin, Banská Bystrica and Lucenec. The centre of the region is the historically famous town Nitra with appr. 83 264 inhabitants. The total geographic surface of the region represents appr. 6 344 sqkm and the number of its population is about 706 375 residents. The total number of the entrepreneurial subjects in 2008 was appr. 64 496. The traditional industrial branches of the region are the machine engineering, metal processing, electrical engineering, chemical industry, building material production and the automobile industry. Based on the excellent climatic and soil conditions very important are also the agricultural production and the food processing industry.

Concerning the size of entrepreneurial subjects there are typical here small and middle sized companies, which went through the transformation process to the market economy easier and more flexibly as many big factories in other parts of the Slovak Republic. In the recent ten years there was established here a large number of new producing companies by local Slovak entrepreneurs, which are successful not only on the Slovak but also on international markets.

The objective advantages of the region have been invented also by well-known foreign companies, from which many are present here with strong investment projects. To the most important foreign investments of the region belong such manufacturing plants as for example the SE Bordnetze-Slovakia Ltd. /cable systems for automobiles/, HEINEKEN SLOVAKIA jsc. Hurbanovo /beer and malt production/, Giesecke & Devrient Slovakia Ltd. /smart cards/, Sluzba SIIX Electronics Ltd. /electronic appliances/, OSRAM jsc. Nove Zámky /electric bulbs/, Kongsberg Driveline Systems Ltd. Vráble /automobile parts/, MATADOR AUTOMOTIVE, jsc Vráble /automobile parts/, SMURFIT KAPPA Obaly Štúrovo jsc. /paper industry/, Enel SpA /production electric energy/, IDO EET Ltd. /special engineering production/. The most important investors came to the region from Germany, Austria and Holland. Besides these direct investments a large number of local industrial companies cooperate very intensively with partners in the European Union supplying for them semi-products or carrying out certain finalizing operations on their final products.

The region has very good transport infrastructure with dense network of roads which contributes to the further intensification of the international contacts. The administrative centre of the region the town Nitra has direct highway connection with the capital Bratislava and thus also with the slovak-austrian border. Thanks to this highway connection and the good geographical position three international airports /Bratislava, Vienna, Budapest/ are available within three hours. In the town Nove Zámky 30 km southernly from Nitra there is one international railway junction and in the suburb of the town Komárno is the second most important river port of Slovakia on the river Danube. After the opening of the Rhine-Main-Danube channel the region has direct ship connection with the Black and North Sea.

Nowadays, the main task of the Regional Chamber of Commerce and Industry Nitra in the international sphere is the further support of commercial and cooperational contacts between Slovak and foreign companies. This target is based on the high interest of the local entrepreneurial circles for the intensification of business contacts mainly with the countries of the European Union and of Middle Europe. It is expected that thanks to the geographical proximity and good infrastructure, this region will attract the interest of further foreign investors. Naturally, the Regional Chamber of Commerce and Industry Nitra will be always ready to equip them with basic orientation in the current Slovak environment and to provide professional advisory services in all spheres of the economic life.

The Region of Prešov

The Prešov Regional Chamber of the Slovak Chamber of Commerce and Industry

The Slovak Chamber of Commerce and Industry, an integral part of which is the Prešov Regional Chamber (PRC SCCI), is an association of business concerns formed in order to boost the economic prosperity of its members, encourage their business activities both in Slovakia and abroad and assist in the creation of a positive business climate. The SCCI is a public institution established by Act 9/1992 of the National Council of the Slovak Republic and declared in Act 121/1996 of the National Council.

Membership in the Chamber is voluntary and its members are both natural and legal persons performing business activities in various fields of economy, with exception of agriculture and food industries.

The members have the right to:

- Use all services provided by the SCCI
- Service price discounts in accordance with the chamber's valid price list of services
- Propose and elect bodies
- Submit proposals for the improvement of the chamber's activities

The primary aim of PRC SCCI is to provide high-quality services to the business community in the Prešov region, to assist in tackling their business-related problems, to predict, analyse and define the needs of entrepreneurs and to offer solutions in the form of both tested and first-time services.

Provided standard services of the SCCI's Prešov Regional Chamber:

- Issuing of ATA carnets and certificates
- Counselling and consultations related with export and import of goods
- Counselling on the possibilities of financing business activities through the Structural Funds (ŠF)
- Services in the field of education
- Development of international trade relations - by organising trade missions at home and abroad
- Organisation of the participation of companies for fairs and exhibitions
- Publishing, distribution and sale of specialised publications

The plan for the Chamber's activities for each year is approved at the plenary session of the PRC SCCI and is outlined on our website www.po.sopk.sk. Members of the PRC SCCI are kept regularly informed about all events organised by the Chamber.

- the territory of the SCCI's Prešov Regional Chamber is the Prešov Self-governing Region
- the PRC SCCI also has an office in Poprad

The Region of Trnava

Trnava Region

the region with its rich history, spiritual and cultural life, with fertile lowlands and protecting mountains, with rivers connecting people, the region of education, the region of good bread and good wine.

Location

Trnava region spreads across the south-western part of Slovakia. In the west it borders with the Czech Republic, in the south-west with Austria, in the south with Hungary. It takes to reach the capital Bratislava by car about 1 hour and the Vienna International Airport about 2 hours.

Transport and infrastructure

The region has a well-developed road and railway transport system. Railways and highways connect the region of Trnava with Bratislava, Czech Republic, Austria and Hungary.

Education

In Trnava region there are a great number of technical and vocational schools provide machinery, transport, electrical, chemical, agriculture, food-preparation and other kinds of education. Secondary schools are aimed at business and services. The Slovak Technical University in Trnava offers degrees in industrial technologies, technical materials, industrial ecology, management and applied information systems. The Trnava University and The University of St. Cyril and Method offer possibilities to study in a large scale of humanities and natural sciences.

Economy

The region of Trnava has its tradition in both kinds of production: industrial and also agricultural. The industrial production includes machinery, /automobile industry/, electrical engineering, chemistry, glassmaking, printing, food industry. The main industrial centres are these towns: Trnava, Skalica, Senica, Galanta, Piešťany and Hlohovec. The industry of agriculture and food is developed especially in the southern districts of Galanta and Dunajská Streda. The region of Trnava is a significant source of energy production for the whole area of Slova-

The Region of Zilina NORTH-SLOVAKIA COUNTY

The situation of Slovak Republic's economy is frequently discussed in Slovakia and abroad, and the debate is greatly confused. The analysis is often mixed up with wishful thinking, simple lobbyism etc. A few neutral figures:

EXCHANGE RATE - Month - VI.
SKK / 1 CZK, Slovakia: Czechia

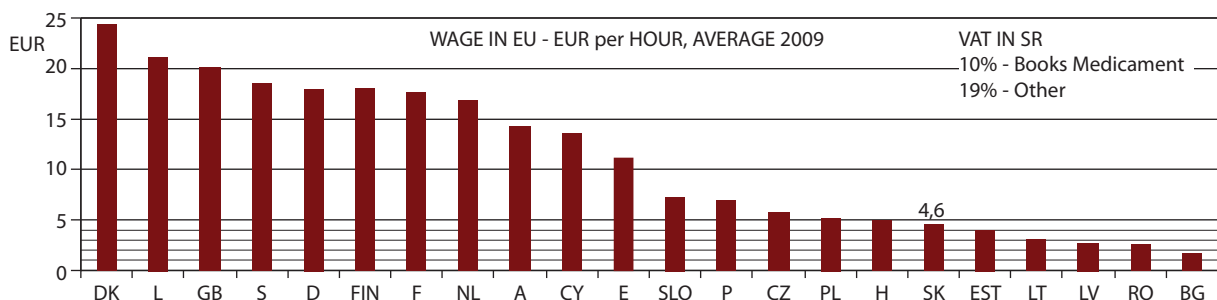

Seventeen years have elapsed since the Slovak Republic acquired independence. In these approximately 17 years the Slovak Republic had to prove evidence of its capability to manage the development of the county, assuring its political stability and economic development.

After three years of independence, the economy of the Slovak Republic acquired from the London „The Economist Intelligence Unit“ the best rating among Czech Republic, Poland and Hungary - countries in transition. The rating was supported mainly by agreed aims and practical economic policy of individual states within the goals of the International Monetary Fund, macro-economic indicators etc.

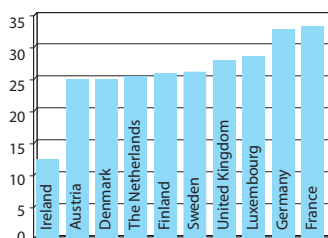

The Slovak Chamber of Commerce and Industry (SCCI) as a public - legal institution plays the role of the major representative of the entrepreneurial and business sphere in the Slovak Republic. The Regional Chamber of the SCCI in Zilina represents and co-ordinates the interests of its members in matters of business activity inland and abroad, renders services and protects them from unfair business relations in the following districts (1999): Zilina, Cadca, Martin, Dolny Kubin, Liptovsky Mikulas, Kysucke Nove Mesto, Bytca, Turcianske Teplice, Ruzomberok, Namestovo, Tvrdošín. The members of Regional Chamber SCCI Zilina come from the most industrial sectors including engineering, metallurgy, building industry, wood processing, paper industries, chemical industries, textile, food industries, brick industries, energy etc.

Our County located at the North-West of Slovakia is one of the most industrialized areas in the republic. Zilina is the city of the County. The region is connected to the international trunks roads **E 50:** (Brest/F/-Brno-Zlin-Zilina-Martin-Ruzomberok-Liptovsky Mikulas-Presov-Kyjev,...) and **E75** (... Koper-Rijeka, (Szeged, Belgrade) -Bratislava-Zilina-Zwardon-B.Biala-Katowice-Warsaw-Minsk..).

North-Slovakia is a transport junction of international railways systems in the direction Poland, Czechia, Ukraine or the South - Trieste, Rijeka, Belgrade, Koper. Air transport is secured via the **Airport at Zilina**. The distance of the Airport from Martin is 37 km. Until the year 2011 Zilina, Liptov, Turiec, Orava, Kysuce will be connected by highways to Košice and the Polish border (Zwardon, B. Biala).

NOMENCLATURE

1 Industry

1.1 Agricultural and Food Sector

Agrichemistry
Food Industry
Professional Services in the Sector

1.2 Engineering Sector

Metallurgy and Smelting Industry
Processing of Metals and Materials
Automatization and Control Systems
Transportation, Manipulation and Construction Technology
Special Technology
Power Engineering
Electrotechnics, Electronics
Assembling and Servicing Companies

1.3 Others Industrial Sectors

Building Industry
Paper and Cellulose
Textile and Clothing Industry

2 Services

Transport and Logistics
Financial and Economic Services
Translation and Interpreting
Fairs and Exhibitions
Telecommunication Services

3 Tourism and Hotels

Hotels, Accommodation Facilities
Agrotourism
Restaurants, Catering Establishments
Travel Agencies

NOMENKLATÚRA

1 Priemysel

1.1 Agrárny a potravinársky sektor

Poľnohospodárstvo
Lesné hospodárstvo
Odborné služby v sektore

1.2 Strojársky sektor

Hutníctvo a metalurgia
Spracovanie kovov a materiálov
Automatizácia a riadiace systémy
Dopravná, manipulačná a stavebná technika
Špeciálna technika
Energetika
Elektrotechnika, elektronika
Montážno-servisné spoločnosti

1.3 Ostatné odvetvia priemyslu

Stavebný priemysel
Papier a celulóza
Textilný a odevný priemysel

2 Služby

Doprava a logistika
Finančné a ekonomické služby
Preklady a tlmočenie
Veľtrhy a výstavy
Telekomunikačné služby

3 Cestovný ruch a hotely

Hotely, ubytovacie zariadenia
Agroturistika
Reštaurácie, stravovacie zariadenia
Cestovné kancelárie

1.1 Agricultural and Food Sector

Agriculture

MERKANTA INTERNATIONAL, spol. s r.o.

Syslia 58, SK- 821 05 Bratislava, SLOVAKIA
